7 **Abstract of the Disclosure**

8 A content delivery server delivers digital content to a personal computer having
9 a disk drive which stores a network address and server-contacting program for
10 establishing a connection between the content delivery server and the personal
11 computer. The content delivery system provides a variety of digital content including
12 AVI, MPEG and MP3 format files to the personal computer and periodically refreshes
13 the content according to user preferences.
